

TRAINING & OPERATIONAL CAPABILITIES

TRAINING & EDUCATION

SIEGE offers a broad spectrum of training and education services to military, law enforcement, and security customers across the globe. With an annual throughput of over 1,000 students, SIEGE's training center - provides over 100 courses of instruction annually. The facility has a dedicated curriculum division and over 200 course curriculums available that can be tailored specifically to meet client needs. From counter-terrorism and advanced force operations to capacity building and canine detection, we create innovative curriculums based on the latest TTPs and trends in each client's area of operations.

PLANNING & OPERATIONAL SUPPORT & CONSULTING

SIEGE offers customer-specific operational planning and support services to U.S. and partner nation forces. We support all aspects of operations from logistics support to instructors and role-players, operationally supporting the find and fix, and supplying post-action reporting. Our cross-sector partnerships and expertise in multiagency coordination, ensures that our training is relevant and impactful—enhancing our clients' military leadership and management capabilities through instruction, training scenarios and joint exercise / operations. We customize our offerings and can not only advise but also assist and accompany via our consulting support capacity.
